FOREIGN TRADE CHAMBER OF BOSNIA AND HERZEGOVINA

# INTRODUCTION

Metal processing sector in Bosnia and Herzegovina, along with base metal production, has traditionally been country's strongest and the most successful industry and export sector. Metal sector as a whole makes up around 37% of total country exports, which gives it a strong lead over top export categories.

Development of metal processing sector in B&H has been enabled by country's natural endowment with natural resources (such as coal, iron ore, bauxite), as well as human capital. The sector is fairly large and it includes ferrous and non-ferrous metal processing, chiefly in iron and steel, aluminum, lead, zinc and copper. Technical capacities exist in sheet metal processing, welding, plasma cutting, bending, machining, aluminum extrusion, castings, and forgings. The sector consistently marks positive trade balance in most of its sub-segments.

The present structure of metal sector is characterized by large number of small companies producing lower value-added products. Such environment provides great opportunities for foreign investors to integrate existing primary producers and start production of higher-added products. In addition, there are opportunities to use existing production facilities and capacities to increase production.

ELMONT d.o.o. Golubinija bb 72 233 Begov Han, Žepče ✉ 00 387 32 684 505 ☎ 00 387 32 684 506 ✉ amel.cunc@elmontzepce.com ☎ www.elmontzepce.com	Steel construction, Fuel tanks, Aluminum joinery, 3D visual advertising elements, Petrol station fuel price signs, Lighted signs	Metal deformation processes
EMPRO BRATUNAC d.o.o. Rakovački put bb, 75 420 Bratunac ✉ 00 381 56 420 100; 00 381 56 410 848 ✉ 00 381 56 420 101; 00 381 56 410 848 ✉ empro@teol.net ☎ www.empro-bratunac.com	Electrical enclosures and cabinets, Substations (STS, BTS, etc.), Metal cupboards, Ferrous metallurgy	Metal deformation processes, Welding, Surface protection
