ALMA RAS

Who we are?

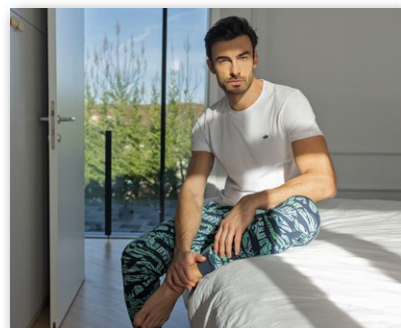

The company Alma Ras started its work in Olovo (Bosnia and Herzegovina) in 1998. It was symbolically founded on Women's Day and since then has been known as an indispensable place for lovers of fine quality underwear and sleepwear. Since the year of its foundation, the company has recorded constant growth and development - from a small, family workshop to a brand leader on the domestic market in Bosnia and Herzegovina. One of the key business policies is taking care of employees, the satisfaction of workers and customers. Through the careful placement of brands in other markets as well, the hearts of customers on the regional and European markets were won, starting from Slovenia, Montenegro, Croatia, Macedonia, and all the way to Austria and Germany. We produce underwear and pajama sets made from the finest natural materials of high quality. In addition to Basic items that are offered throughout the year, we create twice a year items for our customers that follow the global fashion scene. In our own production, since 2021 we have been creating and producing swimwear.

MANNERS, Man in motion. Our brand vision represents a man of the 21st century, in constant movement, who can easily be recognized by the fact that he is always in a hurry and competing with time. For the youngest, we create underwear and pajamas made of extremely high-quality cotton, which is a guarantee for the most beautiful touch on the skin and a pleasant sleep. Trendy patterns and colors change from season to season, so our little ones can choose their favorite motifs twice a year. As a solution and counterbalance to the ever-increasing demands of dynamic everyday life, rapid changes in trends and fashion guidelines, Alma Ras offers the perfect solution - classic lingerie and sleepwear from the AR FAMILY line. Quality materials are the main feature of this product line, which is intended for the whole family and for everyday use.

What we do?

We are a renowned manufacturer of men's, women's and children's sleepwear, men's, women's and children's swimwear, basic daywear, men's, women's and children's daily wear and socks. In addition, as a bra manufacturer, we occupy a serious market

TISSA TEXTILES

Who we are

We are a team with great passion for technical textiles.

And we live this passion!

We weave technical textiles from glass, carbon, aramid, basalt and all other common fibers.

With our development experience at the main plant in Switzerland (established 1964.) and our cost-effective production options at the Bosnia plant (established 2015.), we are able to support and accompany your project from the idea through to series production.

And we are very curious. Challenge us with your idea, your development project or simply with your standard request.

Despite all your technical curiosity, you can of course count on our absolute confidentiality.

Decades of experience and the commitment of our experts in development, sales and production help us do this.

Challenges are exciting and the basis of all progress!

What we do

Tissa Textiles processes technical fibers such as glass, carbon, aramid, basalt but also polyester, polypropylene, Dyneema or Zylon into customer-specific special fabrics. On demand we impregnate and finish fabrics according to individual requirements of customers. Thank to almost 150 years of experience, trustful cooperations with customers and suppliers, and our excellent networking with cantonal, national and international Universities and Research Institutions, Tissa Textiles offers high quality and innovative products to the market.

ZEMI

Who we are

The company ZEMI d.o.o. was founded in 2001 in Tešanj with the primary activity of making work clothes and items. The company also sells protective suits and occupational safety items. The company buys raw materials and tailors and sews its own clothing items, which it sells on the local and foreign markets with the label of its company. The company also imports finished products which it modifies according to customer requirements.

Most products are sold in BiH while 26% are sold outside BiH. After the construction of a modern business space, the company's management decided to focus more actively on new customers and new markets, for which it is planning the second phase of investment. New investments are planned for the purchase of new modern machines and equipment that will significantly increase production capacity and enable contracting with new potential customers.

What we do

ZEMI TEŠANJ is company with many years of experience is one of the renewed manufactures of protective equipment at work in B&H. It was created as a result of knowledge, effort, quality and success back in 2001 with primary activity of making work clothes and safety items at work. In addition to the above, the company provides embroidery services as well as DTF printing.

References/main customers:

The company's main customers are companies from the domestic market in B&H as well as the INO market.
