Orangetree

Orangetree is an innovative brand for babies and parents. It was created due to many years of professional experience gained in the textile industry by its two founders - moms who have gone through the experience of caring for a newborn. Orangetree products, such as the ergonomically designed swaddle sleeping bag or non-falling-off baby socks, are created based on experience to provide maximum support to parents. All Orangetree products are characterized by originality, innovation and functionality. The basic concept of the brand is to offer parents products made

from natural materials that will make their everyday lives easier and help with the challenges of caring for babies. The entire production, which employs women from rural areas of an older age, providing them with the opportunity for stable employment and a dignified life, takes place in Bosnia and Herzegovina following fair trade and slow fashion principles. Orangetree products are sold on the Bosnian market in more than 100 branches of dm drogerie markt and the baby equipment concept boutiques, as well as on the Croatian market.

Ramex

Ramex d.o.o. is a company engaged in the production of furniture, with a focus on the production of children's furniture.

90% of our products are aimed at the foreign market around the world, especially the European continent. Innovation, functionality and a pleasant ambient solution are synonyms for our products that complete every home.

The advantage of our company is the very location of our production in the heart of the forest, which makes it easier for us to use quality solid wood. Our products feature all the best qualities of wood, which makes them natural, solid, and healthy for the environment.

We are constantly committed to development, investment and respect for the social and ecological dimension of sustainable development through reducing the negative impact on the environment, and providing quality and safe working conditions for our employees.

The company's operations are organized in accordance with the requirements of ISO 9001, and production and delivery safety in accordance with ISO 28000. The wood we use comes from forests certified by the FSC® chain of custody.

We are proud of our young team of designers and engineers who turn their innovation and imagination into reality.

Perka

The Perka collection is a unique story created with the aim of creating extremely high-quality, safe and environmentally friendly children's furniture. Caring for the youngest, listening to the needs of children and their parents, represent strength and a source of creativity. Perka takes care of your little ones, while the designed products provide an unforgettable experience.

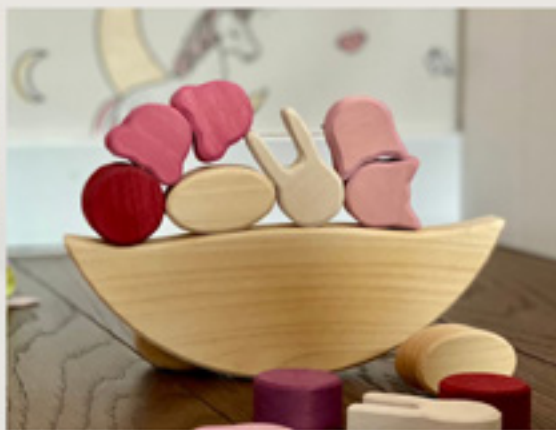

Skule Wooden Toys

Our collection of wooden toys is made from sustainable wood, non-toxic paints - water-based paints - and natural materials focusing on your little ones' safety and the benefits for child development. Our toys are designed to survive generations & tell stories, the perfect heirloom gift.

All these toys are made FSC® - certified wood (from well managed forests) and removing or reducing any parts made from unnatural materials. One step closer to our plastic free ambition!

VRAČO

STUDIO VRACO kids

The idea behind STUDIO VRACO kids is to create playful design that is not just a passing trend, but rather a reflection of a style that is timeless and eclectic in its aesthetics.

Our mission is to make each home feel welcoming and bring in cosiness, joy and balance in our everyday routines with our children. This is something that we find very important in a modern and fast-paced world today.

We are very transparent in our desire to deliver distinct quality, value and handmade furniture that is sustainable both in its aesthetics and production process. All our Vraco lamps are handcrafted and made to last for generations.
