Pordenone (Italy)

BUSINESS MISSION

of companies from Bosnia and Herzegovina
to the “ Coiltech Italia 2025”

September, 17/18 2025, Pordenone (Italy)

Metal, electrical, and automotive industries remain the backbone of Bosnia and Herzegovina’s economy. These sectors lead the country’s industrial production and exports, proving their strength, competitiveness, and resilience.

The metal and electrical industry is the largest and most dynamic, with a strong export orientation and deep integration into European value chains. Companies from Bosnia and Herzegovina deliver quality semi-finished and finished products, as well as specialized components for advanced industries.

The automotive industry is steadily growing, building reliable partnerships with global car manufacturers and suppliers. High-quality metal parts, wiring systems, and electrical components are produced by a skilled workforce with competitive costs, making Bosnia and Herzegovina an attractive location for cooperation.

Bosnia and Herzegovina’s metal and electrical industry shows resilience and steady growth. By investing in innovation, green technologies, and closer cooperation with EU partners, the sector can enhance production, strengthen its position in global value chains, and support sustainable economic development.

Below you can see the list of delegation members.

Anton Paar Shape Tec BA Ltd.

Gornja Močila bb
74450 Brod

info.shapetec-ba@anton-paar.com
www.shapetec.at

Anton Paar Shape Tec BA Ltd.

Anton Paar ShapeTec BA Ltd. is a company based in Bosnia and Herzegovina and a proud member of the Austrian Anton Paar Group. The company operates as a strategic production site, specializing in high-quality industrial manufacturing services with a focus on metal forming, joining technologies, and the assembly of mechanical and mechatronic modules.

As part of a globally recognized group, Anton Paar ShapeTec BA combines local know-how with international standards, delivering everything from a single source – from component fabrication to full system assembly.

Core Activities:

- Production of sheet metal and mechanical parts
- Mechanical and mechatronic assembly
- Project-based system integration for industrial applications
- High-quality, process-stable production based on standards of the certified Austrian HQ

Strategic Focus:

- Supporting international customers with flexible, scalable production capacity
- Delivering premium workmanship for industries with strict quality and reliability demands
- Operating under the procedures and systems of the certified Anton Paar ShapeTec GmbH (Austria)
- Providing long-term value through efficiency, consistency, and full commitment to customer needs

Anton Paar ShapeTec BA Ltd. is looking to expand its cooperation with industrial partners who:

- Require reliable suppliers for mechanical components or assemblies
- Operate in complex technical environments with strict standards
- Value long-term collaboration and integrated supply chain support

Company Vision:

- Sustain high production standards through continuous improvement
- Strengthen position within the Anton Paar global manufacturing network
- Support the growth of the local operation and develop future talent
- Remain a trusted, agile partner for demanding industrial projects

The smart way to energy!

DELING Tuzla

Deling Ltd.

Deling Ltd. is a private company, established in 1991. We are the company that can meet all customer requirements.

Deling Ltd. production facility is divided into mechanical and electrical production. In mechanical facility we have complete metal sheet (steel, galvanized steel, stainless steel, aluminium) processing stages. We use 2D laser cutters, tube laser, punching, bending, welding CNC machines, including powder coating as final surface protection.

Final products are mechanical products and semi-products, constructions (partly and complete), machine frames, cabinets and containers. In electrical facility, we have our own production of LV SwG ($I_n = 160 - 7000$ A), MV SwG ($U_N = 6 - 36$ kV; $I_n = 630 - 2500$ A), and distributive compact transformer stations (10-20/0,4 kV). All of our products are type tested in accredited laboratories (CESI, Koncar, IPH), according to relevant IEC standards.

Emerus Ltd.

Knešpolje bb, 88220 Široki Brijeg
Bosnia and Herzegovina

info@emerus.eu
www.emerus.eu

Emerus Ltd.

Emerus Ltd. is a European manufacturer of extruded aluminum profiles for various industrial sectors. Key production processes include profile extrusion (using two presses with thrust capacities of 1800 and 2500 tons), quality control, machining (CNC - 12 machines), surface protection (powder coating), thermal break, technical support, and logistics.

The Emerus team has developed its own construction systems by listening to market needs and leveraging the advantages of their in-house aluminum profile production. This includes solutions for facades, doors, windows, sun protection, fences, and solar substructures.

Emerus Ltd. operates according to the principles of the following certifications:

- ISO 9001 - Quality management system
- ISO 14001 - Environmental management system
- ISO 45001 - Occupational health and safety management
- IATF - Compliance certificate for the automotive industry
- QUALICOAT SEASIDE - Surface protection certificate
- ISO 14025 - EPD (Environmental Product Declaration)
- EN 15088 - By meeting this standard, Emerus products bear the CE marking.
- The carbon footprint of our raw profile: 8.15 kg CO₂eq / kg profile

Mission:

Our mission is to ensure long-term satisfaction of our clients in the construction and industrial sectors by providing impeccable quality aluminum profiles, systems, and related services, along with timely delivery in domestic and international markets.

- Production facility (15,000 m²)
- Administrative building
- Year of establishment: 2007

EU office:

Alexander von Humboldt Street 4B
10000 Zagreb
Croatia
Year of establishment: 2018

ENERGOINVEST

Energoinvest D.D.

Energoinvest d.d. is a multidisciplinary engineering company from Bosnia and Herzegovina, executing projects on a turn-key basis as an EPC contractor.

Established in 1951, the company has a long history of delivering complex projects to clients across various industries and a proven track of record.

Our core businesses are substations and transmission lines. We also handle substation automation systems and integration into SCADA systems installed in transmission and distribution level dispatching centres, telecom systems, environmental protection and water utilities, power plants, civil engineering and smart city technologies. Furthermore, as the exclusive supplier of natural gas to the Federation of Bosnia and Herzegovina, we have a significant presence in the gas sector in Bosnia and Herzegovina.

We're proud to be growing and developing with the help of our valued partners: Wattkraft Group, UKSOL, Ares Trafo Ekipmanları, and Emerson-AspenTech.

As we continue to expand, we look forward to welcoming new partners and building on our tradition of successful collaboration.
